Monthly Report from the Department of Agriculture.

THE VALUE OF FARM PRODUCTS.

Corn Ranges Above the Average in the States of the Largest Production—An Abundant Production of All Cereals. Other Washington Dispatches.

WASHINGTON, Dec. 11.—The returns of the statistical reporters of the department of agriculture for December, duly consolidated, make the average farm value of the current year as follows: Corn, 42.2 cents per bushel; wheat, 85.3; rye, 77.4; barley, 54; oats, 32.2; buckwheat, 57.9; potatoes, 37.1; tobacco, cigar leaf, 14.1 per pound; manufacturing and export leaf, 7.5; hay, \$8.39 per ton. Condition of growing wheat reported at \$6.8.

The price of corn is 2.9 cents per bushel more than the average of ten years from 1880, and only four-tenths of a cent less than the average for the decade from 1870. In the states of largest production prices are as follows: Ohio, 41 cents; Indiana, 38; Illinois, 37; Iowa, 40; Missouri, 38; Kansas, 34; Nebraska, 29. The latter state, where corn is cheapest, has reported a higher value only four times in fifteen years.

The average value of the whole crop, since 1880, has been higher only in 1887 and 1890 when the yield was only about twenty bushels per acre. The value of the wheat crop is 2.5 cents per bushel higher than the average of ten years from 1880, and has been exceeded only once (1888) since 1883.

In the states of the Atlantic coast and those on the Gulf of Mexico, except Texas, the value is from \$1 to \$1.15 in the Ohio valley from \$5 to 96 cents; beyond the Mississippi from 70; in North Dakota to 81; in Iowa, only once since 1883 has the price of oats been as high as at present, 32.2 cents, which is 1.3 cents higher than the average of ten years from 1880. The price of cereals have been remarkably sustained in view of the abundance of production.

Returns showing condition of the coming crops of winter grains are not generally favorable. On the Atlantic coast some injury is reported on early sown areas from the Hessian fly. The season was not favorable for seeding in the south, on account of continued dry weather, and germination was slow from the same cause. Rains in the late autumn have improved the prospect. In the western states seeding was late, the seed bed hard and cloddy, germination slow, and growth feeble until November, when material improvement was seen in most fields.

In some districts the Hessian fly made its appearance, causing some damage. The average of condition of the crop is 85.2. The figures for the principal states of the great wheat belt being Ohio, 90; Michigan, 92; Indiana, 81; Illinois, 80; Iowa, 92; Missouri, 78; Kansas, 75; Nebraska, 93; California, 97. The average for New York is 97; Pennsylvania, 92; Maryland, 87; Virginia, 86; Georgia, 96; Texas, 70. The condition of rye is a little higher than that of wheat, making an average of 88.8.

DEPARTMENT OF JUSTICE.

Annual Report of Attorney General Miller.

WASHINGTON, Dec. 11.—The annual report of Attorney General Miller, sent to congress yesterday, covers the operations of the department of justice for the year ended June 30 last, and contains a number of important recommendations. In reference to the United States supreme court, the attorney general says:

"The legislation enacted by the last session of the fifty-first congress, with a view of relief in the business of the supreme court, has so far not afforded such relief. On the contrary, the number of cases upon the present docket of that court is larger than ever before. This is accounted for by two causes:

"First, when it was known that, after a fixed time, a large class of cases could no longer be brought by writ of error or appeal to that court, special efforts were made to get cases into that court prior to that time; and thus a considerable number of cases were filed in which otherwise the writ of error or appeal would have been perfected much later."

"Second, the law providing for the circuit court of appeals authorizes a review in the supreme court of appeals any judgment or conviction in case of a felony, whereas prior to the act of Feb. 6, 1889, the supreme court had no appellate jurisdiction in criminal cases; and after that act, until the passage of the appellate court bill, only in capital cases. Naturally, unless the appellate court bill is amended, a very large part of the time of the supreme court will be required in the consideration of writs of error from judgments of conviction in cases of felony."

Statistics are given showing the number of cases disposed of by the court and the number still on the docket. The court disposed of 617 cases the past term, of which 30 per cent. were government cases. The circuit court of appeals, authorized by act of congress March 3, 1891, has been organized in each circuit and is ready for business, although the additional circuit judge in each circuit has not yet been appointed.

National Bar Association.

WASHINGTON, Dec. 11.—The National Bar association yesterday chose James C. Carter, of New York, president, and fixed Washington as the permanent place for holding the annual sessions, and the first Wednesday after the second Monday in each year as the time. The vice presidents chosen are: Sherman Hoar, of Massachusetts; George F. Edmunds, of Vermont; T. F. Bayard, of Delaware; C. M. Blanchard, of Virginia; F. G. Bromberg, of Alabama; J. G. Carlisle, of Kentucky; A. C. Harris, of Indiana; G. A. Finkelsberg, J. R. Finlayson.

Making Use of His Position.

WASHINGTON, Dec. 11.—Doorkeeper Turner left Washington yesterday for New York. It is rumored that he was summoned by Mr. Croker for consultation in regard to appointments to the offices under his control. There are 132 positions to be filled. The total sum annually disbursed exceeds \$131,000.

Secretary Foster Still Improving.

WASHINGTON, Dec. 11.—Secretary Foster is steadily improving. His temperature he remained normal for the last twenty-four hours.

IDLE MEN AT CHICAGO.

They Number Thousands—Good Place to Keep Away From.

CHICAGO, Dec. 11.—The circular distributed broadcast some time since by the trade and labor assembly, urging unemployed workmen to stay away from Chicago, seems, up to the present, to have failed in its intended effect. Every new day seems to bring recruits to the already large army of men out of work of both the far east and the far west, as well as the south being represented among the arrivals.

The progress of construction on the world's fair grounds, as well as the tremendous amount of building operations now going on, has furnished employment to hundreds, if not thousands of the early arrivals, but, nevertheless, the local labor market is overstocked and is certain to remain so until the spring, at least.

Dissatisfied Mexicans.

CITY OF MEXICO, Dec. 11.—There has been, and is at present, much rioting going on in Toluca. It is due to the dissatisfaction of the people with the government. Troops are held in readiness to proceed to the scene of the disturbance whenever the government may deem it necessary. In order to relieve the famine in the states of Durango, the government is purchasing corn in the United States. An agent named Sumdis, employed on the Mexican Central railroad, has disappeared. He is also said to be a defaulter to a large amount. It is thought that he fled to the United States.

The Revolution in Mexico.

CORPUS CHRISTI, Tex., Dec. 11.—It now appears that after his attack upon Para, Mex., last month, Garcia, the revolutionary leader, crossed into Texas at Palito Blanco, followed by Colonel Aguirre and his command. Garcia was tracked to Corpus Christi, in company with two others, all three partially disguised. The three were seen entering a coach on the train bound for San Antonio yesterday. Colonel Aguirre, who is now in this city on Garcia's train, thinks that the revolutionist will endeavor to cross back into Mexico at Eagle Pass, Tex.

COLUMBUS, O., Dec. 11.—Thomas Monahan, an aged section hand employed by the Big Four railroad, was run over by a train here yesterday and instantly killed.

CHINESE REBELS.

They Have Suffered Another Disastrous Defeat.

GREAT SLAUGHTER REPORTED.

No Prisoners Taken, But Those That Were Captured Were Immediately Beheaded—Christian Children Brutally Murdered and Carried About the Streets to Excite the Populace—Other Foreign News.

SHANGHAI, Dec. 11.—The report that the Mongolian rebels have suffered another defeat is confirmed. They were followed up so closely by General Nich after the battle of Chao-Yang that they made another stand in desperation, and were again driven with great slaughter before the imperial troops. The particulars of the fight have not yet been received.

Europeans here express the opinion that the rebels would have surrendered or dispersed but for their knowledge that no mercy would be shown them. Information from rebel sources is to the effect that certain Mongolian tribes were initiated into rebellion by the increased exactions and greater rigor of the Chinese authorities.

The Chinese have lately been establishing a stricter administration in the portions of the empire adjoining Russian territory, and the Mongols have been brought more closely within the imperial jurisdiction. The motive of this is to present a compact defense to possible aggressions by Russia.

L. I. Hung Ipan has ordered the punishment of all who were engaged in the massacre of native Christians at Tien Tsin, and several rioters have been captured and executed, the Peking government having granted leave for immediate beheading in all such cases. Europeans are convinced that the anti-Christian riots are caused in many but not all cases by the hatred which the upper class of Chinese bear toward the foreigners, this hatred being grounded on jealousy of foreign intelligence and influence.

The literati are the promoters of the disturbances by their appeals to the ignorance of the people, with stories about babes being killed and their eyes and lungs taken out for medicine. It is said that at Sanchi the murderers of the Belgian and native Christians carried about the mutilated body of a child in order to further excite the fury of the populace. The body was that of a child of Christian parents, brutally killed by the rioters themselves. It served the purpose of exciting the people and urging them on to further horrors and cruelties.

This belief in the child-slaying propensity of the Christians appears to prevail everywhere that the missionaries have penetrated. The secret societies, it is asserted by the missionaries, are not aimed so much at foreigners as at the Chinese government, but the mandarins and literati try to give the impression to Europeans that the atrocities for which they are themselves responsible were perpetrated by the societies.

Gale Sweeps Over Great Britain.

LONDON, Dec. 11.—Another severe gale has swept over the British Isles, causing an immense amount of damage almost everywhere. Houses were unroofed, chimneys blown down and a number of wrecks are strewn along the coast. Happily up to the present there has been no loss of life reported, but there is much additional suffering among those who have already lost by the half dozen serious storms which have marked the past year as being an unprecedented one in the weather history of this side of the Atlantic. Owing to the fact that the telegraph wires are down in several sections, communication with those parts is momentarily interrupted.

Satisfied in Rome.

ROME, Dec. 11.—The tone of President Harrison's message on the New Orleans lynching gives general satisfaction here. Premier Rudini, replying in the chamber yesterday to Signor Ciampi, said that he had noted the friendly expressions in the message of President Harrison, and was confident that the question at issue would be settled; that if America would semi-officially promise Italy to modify the constitution so as to insure absolute protection for foreigners living in the United States, the Italian government would be willing thereafter to regard the lynching as closed.

The Coming Consistory.

ROME, Dec. 11.—Cardinals are already gathering for the coming consistory. It is said that the pope, following the example of Pius IX., has prepared exact directions as to the action to be taken in the event of his death, including even minute details of the care and disposition of his body. It is known that the Italian government is to be kept jealously at arm's length, and in no wise allowed to interfere, officially or otherwise, with the papal obsequies.

Disgraceful Scene at a Funeral.

PARIS, Dec. 11.—During the funeral ceremonies at the cemetery where the many victims of the St. Etienne mine explosion were interred, M. Rouvelour, vice chairman of the colliery company at St. Etienne, and M. Girodet, mayor of St. Etienne, quarreled over a question of etiquette. A disgraceful scene ensued, which resulted in a challenge to fight a duel. This has been accepted, and the disputants are now making preparations for the "affair of honor."

More Christians Massacred.

TIEN-TSIN, Dec. 11.—Some Christians have been massacred near Pakouscib by bandits and an undisciplined mob under a military commander, who co-operated in the massacre, has committed suicide. A magistrate implicated in the affair has been arrested.

SUFFERING STRIKERS.

Situation Serious Among the Miners at Brazil, Indiana.

BRAZIL, Ind., Dec. 11.—The second distribution of finances received from headquarters of the United Mine Workers was distributed here Wednesday. Over \$500 was allowed for this district, which has been distributed among several hundred dependent families, making an exceedingly scanty sum for each individual to live on for the next two weeks. Considerable dissatisfaction prevails here among the miners, and many needy families are in our midst, notwithstanding President Commisky's report that all is well here, and everything in excellent condition. Unless the distributions are more elaborate many miners will be compelled to work or suffer for the necessities of life.

The state of affairs here at present is very depressing and is rapidly growing worse. Over 250 men are at work in the block coal mines and at the old prices.

White Cap notices and large bunches of switches were placed at several miners' doors Wednesday night, who were working in the mines. Every indication points to serious trouble here, unless all mines are closed, as those who are not in favor of working vow they will wreak vengeance on every blacklegger.

Arrested for Embezzlement.

DENVER, Dec. 11.—Robert Shirey, ex-president of the First National bank, of Red Cloud, Neb., also ex-manager of the Farmers' Loan association, of Webster county, Neb., was arrested in this city yesterday, charged with the embezzlement of \$20,000 from the two institutions. Some months ago Shirey was defeated for re-election as the head of the two institutions, and shortly afterward both were found to be insolvent. Shirey came to this city to live. He claimed he lost every dollar he possessed by the collapse. It is alleged now, however, that he embezzled the sum above mentioned and made false entries to hide the fact. Officers arrived from Nebraska yesterday and last night left with the prisoner for Red Cloud.

Miners' Troubles.

BRAZIL, Ind., Dec. 11.—The second contribution to the striking miners arrived yesterday. The proportion allotted to the Brazil district was \$100, and amounted to about the same as the last distribution—fifteen cents each. White Cap notices and large bunches of switches were placed at several miners' doors Wednesday night, who were working in the mines. Every indication points to serious trouble here, unless all mines are closed, as those who are not in favor of working vow they will wreak vengeance on every blacklegger.

Death of an Old Veteran.

DAYTON, O., Dec. 11.—Major Malbone F. Watson, secretary of the board of managers, died at the soldiers' home yesterday from Bright's disease. Major Watson was born in New York in 1839, and graduated at the West Point military academy in 1860, and was a lieutenant in the First cavalry at the outbreak of the war, and was twice promoted in the field for gallant service. He lost a leg at Gettysburg, and was made captain of the Fifth artillery in 1866, and was retired two years later.

Eating Dog Meat.

ANDERSON, Ind., Dec. 11.—Sam Burnett, a twenty-year-old young man, who is lying at the point of death in this city, is trying the dog flesh cure. On Monday he had a healthy young dog killed and dressed by a butcher. Then a portion of the meat was cooked under the direction of a physician and young Burnett ate of it. The diet has been kept up since, and it is claimed beneficial results are already noticeable.

Peddler Robbed.

ENGLISH, Ind., Dec. 11.—Julius Wienstock, a peddler, was knocked down and robbed at 9 o'clock yesterday morning between here and the tunnel. A check for \$100 upon the Paoli bank and \$45 in cash were taken from him. There were two highwaymen, one of whom knocked him in the head with a club. The other struck him with a revolver.

Fought with Bare Knuckles.

WILKESBARRE, Pa., Dec. 11.—Thomas Lawall and James Morton fought according to London prize ring rules with bare knuckles last night. Morton was knocked senseless. Lawall's cheek was split open, and he was otherwise badly "done up." The fight arose from a personal grudge. The police are looking for the fighters.

Horribly Burned.

ECKERTY, Ind., Dec. 11.—Mrs. Amanda Colgan, aged seventy, of Sodon, Perry county, has been suffering with fainting spells. Wednesday evening while stooping over the fire preparing supper she fell into the fire. Her right arm, neck and face were severely burned, and it is hardly likely she can recover.

A Natural Gas Explosion.

ANDERSON, Ind., Dec. 11.—A natural gas explosion caused a \$20,000 fire at Frankton yesterday. Half a square of business property was burned, including George Sigler's drug store, D. Canday & Son's general store, Grass hardware store, and the office of the Frankton Leader.

Hotel Burned.

MADISON, Wis., Dec. 11.—A fire at Lodgeville yesterday destroyed Rudolph's hotel, the offices of The Chronicle, The Sun, The Eye and The Star, a blacksmith shop, a paint shop and several other buildings. The loss is \$40,000 with partial insurance.

Run on a Bank.

LOWELL, Mass., Dec. 11.—A run was commenced on the Lowell Institution for Savings yesterday, caused by the rumor that the bank was not safe. The bank paid all demands promptly. The alarm is looked upon as entirely groundless, the bank being considered one of the soundest in the state.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

FRIDAY, DECEMBER 11, 1891.

THE Republicans are no doubt very much disappointed because Mr. Mills was not chosen Speaker.

In the last Congress there were 175 Republicans and 154 Democrats. In the present Congress there are 235 Democrats and 88 Republicans. A big change in two years.

THE day before Crisp's election as Speaker the Courier-Journal said: "There was a growing feeling in Washington last night Mr. Mills would receive the caucus nomination for Speaker to-day."

The next day the C-J. said: "The result is not a surprise." The C-J. adapts itself very easily to circumstances.

THE Greenup Gazette says the Republicans of Eastern Kentucky speak high of President Hareison, but "they are all for the matchless James G. Blaine for President in '92." If Blaine is a candidate, he will get Kentucky's vote in the convention. There promises to be a lively fight between the Harrisonites and the Blainites of Kentucky."

A GLASS factory employing 150 hands and with a weekly pay roll of \$2,500 would prove a big thing for Maysville or any other city. The parties interested in the proposed factory guarantee to employ the number of hands named ten months in the year, and if the industry is established that means \$100,000 in wages distributed among these workmen annually, and most of this will find its way into the cash-drawers of our merchants. There oughtn't be any trouble to secure the \$25,000 stock necessary to insure the establishment of this enterprise.

"WITHIN the past fortnight," says the Boston Post, "an ex-chairman of the Republican National Committee, has compelled his 1,500 workmen to take less pay or work longer hours. Niedringhaus, tin plate ex-Congressman, still refuses to accept the price list of the Amalgamated Union. The Oliver & Roberts Wire Company, of Pittsburg, reduced wages 20 per cent. last week; and among the millionaire Pennsylvania iron-masters, including Mr. Andrew Carnegie himself, to whom Massachusetts pays large tribute, there is a general movement against union rates. Here in Massachusetts it is not so much a matter of reduction of wages as of stopping wages altogether." But President Harrison thinks the McKinley bill is doing great things for the country, and that it ought to be left alone.

Religious News.

Rev. W. T. Barker, of Warsaw M. E. Church, South, closed a meeting at Ghent with 13 additions, 2 by letter. He has been on that circuit 9 weeks, and 7 weeks of that time has been engaged in 4 protracted meetings, realizing 31 additions and 30 conversions.

The memorial fund of \$5,000 for Williamsburg Institute which was started during the meeting of the State Baptist Association, in memory of the late Rev. H. T. Daniel, has reached nearly \$4,000, and contributions are being received almost daily.—Whitley County Herald.

The Paris Kentuckian has the following in reference to a young minister well known at Washington: "At the meeting of the Presbytery of Ebenezer, in the Second Presbyterian Church on Monday afternoon, the request was granted for the dissolution of the pastoral relation existing between Rev. J. B. Devault and the churches of Clintonville and Hope-well, on the ground that his health required a change of climate. Mr. Devault's ministry in these churches has been most happy and useful, and they part with him with deep regret."

Maysville Fuel Company.

This company has entered into articles of incorporation and organized by electing Dr. J. T. Fleming, M. C. Russell, W. H. Wadsworth, Thos. A. Keith and Thos. R. Phister, directors. At a directors' meeting afterwards held, Dr. J. T. Fleming was elected President, M. C. Russell, Vice President, and W. W. Ball, Secretary and Treasurer. The Council of the City of Maysville has granted a franchise to the company to pipe the city for fuel gas, and work will be commenced within the next forty days.

The company is capitalized at \$30,000; shares \$10 each, money to be paid in on call of the directory. There has been about \$16,000 of the stock taken, and the books are now open and stock can be secured by calling on the Secretary at the First National Bank. The shares have been placed at \$10 each, so as to give every person an opportunity to have an interest. We understand that the books will be open for subscriptions the rest of this month only, and that all stock not taken by January 1st, 1892, will be taken by some of the present members of the company.

For the Farmer.

J. W. Thomas & Son bought 15,000 pounds of tobacco from Thos. H. Wilson, at an average of 9 cents.—Bourbon News.

A three-year-old steer sold at Owingsville weighed 3,200 pounds.

G. W. Colvin & Son, of Fern Leaf, have sold their crop of new tobacco, amounting to about 6,000 pounds, to William Dwire, of Covington, at 12 cents.

Mr. John W. Davis leads the van of burley tobacco growers for this season. His crop of sixteen acres has already been stripped out and delivered to the purchaser, eight acres of which averaged 1,800 pounds to the acre and was sold at 10 cents per pound; the remaining eight acres produced 1,700 pounds per acre and went at 8 cents per pound. For the sixteen acres Mr. Davis received \$2,258, an average of \$158 per acre.—Midway Clipper.

Railway News.

The F. F. V.'s scheduled time between Cincinnati and New York is one hour shorter now than under the old table.

Says the Times-Star: "Freight traffic on the C. and O. railway has increased so wonderfully that in spite of the fact that rolling stock has been added to constantly in the last three years, it can not furnish cars sufficient to handle freight that is now being offered. Mr. Snyder Hall is now negotiating with all friendly connections with a view of borrowing equipment to handle export freight now contracted for. The elevators and piers at Newport News are taxed to their fullest extent with export freight. That Newport News is by no means a seaport of small extent is indicated by the fact that between December 1 and 20 there will be thirteen regular sailings for European points, in addition to numerous sailings made by tramp vessels."

River News.

The ferryboat, Stone Bros., has resumed her trips at Ripley, in thorough repair.

It is said the new Telegraph has the finest cabin of any boat on the Ohio. Colonel Gus Simmons runs her bar.

Due up: Bonanza at 9 p. m., Telegraph and Andes at midnight. Down: Hudson and St. Lawrence this evening and City of Madison to-night.

The Enquirer says: "Captain Con. Phister's new ferry, Laurance, at Maysville, is now in service, and is only rivaled by the new Telegraph in beauty."

A Card from Michael Gordon.

MAYSVILLE, KY., Dec. 10, '91.
To Editor of Bulletin—Dear Sir: I was arrested a few days ago for grand larceny committed at the Grand View Hotel, and brought up for trial, after which I was acquitted, as I was wholly innocent of the charge. Now, I understand that a report is circulated about town (by whom I know not) that I confessed to the crime after my trial. I wish you would oblige me by printing in your valuable paper a positive denial of the aforesaid report, as my character is unimpeachable and I do not wish to have any stain upon it. I can positively prove my innocence, and am willing to stand a thorough trial and investigation. You can state that I claim no man that ever knew me believes I was guilty of the charge that that hotel-keeper of the Grand View charged me with. You will oblige me very much by stating these facts. I remain respectfully yours,
MICHAEL GORDON.

A HOME WEDDING.

Happy Nuptial Event at a Pleasant Suburban Residence.

Marriage of Mr. Lewis K. Parry and Miss Elizabeth Wood Last Evening.

Last evening the handsome suburban home of Mr. J. James Wood was the scene of a happy nuptial event that joined two lives in the bonds of wedlock.

The occasion was the marriage of Miss Elizabeth, the eldest daughter, to Mr. Lewis K. Parry.

Eight o'clock was the hour fixed for the ceremony, and shortly before that time carriage after carriage rolled up the drive to the door with their loads of handsomely dressed ladies and gentlemen, who were hospitably received and escorted to the dressing rooms, and after removing their wraps entered the spacious parlors.

The house was beautifully decorated with a profusion of flowers, in parlor, halls and rooms, and a multitude of lamps with tinted shades cast a mellow light over the brilliant assemblage.

On the west side of the parlor is a large bay window which had been converted into a floral bower, and from the arch hung a lovely floral marriage bell.

A few moments after the appointed hour, the bridal procession entered. First came in single file the three lovely sisters of the bride, who arranged themselves around the alcove. They were followed by the maid of honor, Miss Amy Phister, and then came the bride and groom who were met by Rev. B. W. Mebane beneath the marriage bell.

The ceremony was of unusual beauty and impressed all with the sacredness of the occasion.

After the marriage a few minutes were spent in congratulations, kisses and good wishes, and then supper was announced.

It was a feast worthy of the occasion, beautifully served and thoroughly enjoyed. About 10 o'clock the happy pair were escorted to the door amid a shower of rice and old shoes, and started for the home of the groom, followed by the good wishes of everyone. The night was so beautiful as to impress all with the thought that it was an omen of future happiness to the young couple.

The bride is one of the loveliest of women, of noble character, charming in person and manners and very popular. The groom is one of Mason County's popular and prosperous young farmers.

A large number of beautiful and handsome presents testified to the esteem in which the couple are held.

COTTON RETURNS.

Report Made to the Department of Agriculture.

WASHINGTON, Dec. 11.—The cotton returns of December to the department of agriculture relate to average prices on plantations. The complaint of unremunerative values is general, and the declaration frequent that the crop does not return cost of production.

A feeling of discouragement pervades the report, and a disposition to reduce area is expressed. The plantation price, which is the actual rate for cotton sold at the gin, averages 7.3 cents per pound. For five years preceding the range was from 8.1 to 8.6, and averaged nearly 8.4 cents. This decline is given in the records of exportation, which averaged in October a value of 8.9 cents, again 10.11 cents for October of last year, a drop of 12 per cent.

The state averages are as follows: Virginia, 7 cents; North Carolina, 7.4; South Carolina, 7.4; Georgia, 7.4; Florida, 7.3; Alabama, 7.3; Mississippi, 7.3; Louisiana, 7.3; Texas, 7.3; Arkansas, 7.3; Tennessee, 7.3. An almost unexampled season for harvesting is reported, with picking, ginning, and marketing far advanced. While the fibre is at many points short it is clean and of good color.

ROMANCE AND TRAGEDY.

A Wedding Recalls the Killing of Two Men.

UNIONTOWN, Pa., Dec. 11.—Miss Lizzie Nutt was married at her home yesterday to Samuel J. Krepps. Nine years ago Miss Nutt, then a beautiful girl, was betrayed by a man named Dukes, who afterwards wrote her father, Captain Nutt, a taunting letter. Captain Nutt, at that time state treasurer at Harrisburg, came home, called at Dukes' room by appointment and was shot in cold blood.

After a long trial Dukes was acquitted by a jury, who were reprimanded by the judge and then driven out of town by an angry crowd. Dukes took refuge in the county jail. Six months later James, the eldest brother of Lizzie, shot Dukes down in the street because he laughed at him. "Jim" was acquitted in Pittsburgh, where Senator Voorhees defended him, and is now farming in Kansas. Lizzie is thirty years of age and still pretty. Her marriage is the result of an early attachment.

Well Known Stage Manager Dead.

BALTIMORE, Dec. 11.—Oliver Wilson Doud, the well-known stage manager and actor, died yesterday at Mount Hope retreat, near Baltimore, of paresis and derangement of the digestive organs, brought on by overwork. Mr. Doud was nearly thirty-seven years old. His stage career was begun in Baltimore with John T. Ford at Holiday Street theater as call boy. He next became prompter, and afterward was stage director for Mrs. Langtry on her tours. He directed for J. K. Emmet, John E. Owens, Charlotte Cushman, and had charge of the Arch Street theater stage, Philadelphia, for Mrs. Drew. He accompanied Mary Anderson on her memorable tour to England, and from that time until two seasons ago, was with Lawrence Barrett and the Booth and Barrett combination.

Fire in the State House.

INDIANAPOLIS, Dec. 11.—There might have been a serious fire in the state house but for a discovery in the office of the secretary of state yesterday evening. For several days it has been noticed that the vault in the office was unusually warm. Yesterday the heat became so pronounced that the attention of Engineer Cain was called to it. He made an investigation and found in the vault a blind radiator connecting directly with the pipes leading to the furnace at the other end of the building. The thin coat of plastering over this opening had broken, and the heat was coming out among the valuable papers in the vault. In a few hours more all the valuable papers would have been destroyed.

Want Reduced Rates.

INDIANAPOLIS, Dec. 11.—The farmers of this state are preparing to demand of the next legislature that a law be enacted reducing the state rate of railroad fare to two cents a mile. This is precipitated by the action of the Central Traffic association in refusing to grant reduced rates to members of the many farmer organizations. The movement against the railroad has been set going by the Tillamook association adopting resolutions censuring the Traffic association and demanding that the legislators pass a two-cent rate law.

Buried the Old Man Like a Beast.

CHILLICOTHE, O., Dec. 11.—An aged negro by the name of Philip Raney died Wednesday afternoon at his home, a little shanty on the outskirts of the city. Hardly had the breath left his body when the members of his household carried him out and dumped his remains into a hole previously dug in anticipation of the event. The whole affair was conducted with such an evident desire to save funeral expenses that a purse will probably be raised and the old man reinterred with a greater regard to decency.

Locating Gas and Oil by Electricity.

WABASH, Ind., Dec. 11.—Wednesday the Citizens' Natural Gas company went over the ground around Wabash with E. Alexander, of Cleveland, an expert in locating gas and oil wells. He operates with a magnetic appliance, and the instrument indicated several places where Alexander said gas or oil might be found. Many people think the first well drilled here was tampered with, and they firmly believe gas can be found here. A company is being formed to sink another well.

A Wolf's Depredations.

GREENCASTLE, Ind., Dec. 11.—The farmers in the northern part of Putnam county are suffering from the depredations of a wolf, for whose capture repeated efforts have been made. They have raised a pony purse amounting to \$100, which they offer as a prize to any one capturing the animal dead or alive. Another organized hunt is in contemplation about the holidays, and a carnival of fun is anticipated.

Lived Ninety-Nine Years.

LEBANON, Ind., Dec. 11.—Susie Davis, aged ninety-nine, an early pioneer of this county, died yesterday of old age.

RUNNING WILD.

Cars Dash Down a Track and Carry Rain with Them.

MARQUETTE, Mich., Dec. 11.—A freight train broke loose three miles out and crashed down into the city, one car jumping the track at Division street, crashing into the house of John Crowl, throwing him and his wife out of bed and badly bruising them. The other cars and the caboose took fire from a stove. They ran a few rods further, jumped the track and piled against the house of Alexander Ineson, communicating the fire to it.

The inmates of the adjoining house, Patrick McPart's family, barely escaped with their lives and with no clothing. Both houses and contents were destroyed.

It was first thought that Conductor Coran and rear brakeman Geba were killed, but they escaped, having jumped soon after the break occurred, when they saw another section, which also broke loose, tearing down on them at a terrific speed.

The cars attained incredible headway. The cars and their contents, principally holiday merchandise, were totally destroyed. Loss \$12,000.

Village Destroyed by Fire.

SILVER CREEK, N. M., Dec. 11.—Yesterday fire was discovered in a vacant frame hotel building in the town of Pinos Altos. Not a drop of water was accessible, and the whole town was soon in flames. Men, women and children turned out to fight the fire, but the dry buildings burned like tinder, destroying the entire town. Only two business houses were saved, the stores of Bell & Stephens, and A. K. Leroy. The loss will reach \$100,000; insurance light. The fire is thought to have been incendiary.

Fatal Family Quarrel.

PUEBLO, Colo., Dec. 11.—Billy Carson, a descendant of the old scout Kit Carson, some years ago married a daughter of William Russell, a ranchman living on the Purgatorie creek. The marriage proved an unhappy one, and Mrs. Carson returned to her parents' home. Yesterday Carson went over to the Russell ranch and a quarrel ensued. The mother-in-law, who is of Mexican blood, went for Carson with an ax. The latter drew a revolver, killed her, wounded Russell and then fled.

Explosion in a Foundry.

PITTSBURGH, Dec. 11.—A ladle filled with molten metal exploded at the Lucy furnace on Fifty-second street yesterday, fatally burning James Mardella, aged forty-five, and Peter Hickey, aged thirty-three.
